

Abstract Guidelines for the ISRA2024 Symposium

March 4, 2024	Abstract submission opens
September 25, 2024	Abstract submission deadline
October 18, 2024	Acceptance status and notifications emailed to presenting authors
December 2-5, 2024	ISRA2024 Symposium

The ISRA2024 Symposium is scheduled to take place in Elsinore, Denmark December 2-5, 2024, at Konventum conference center. **All presenters will be required to attend in-person to make their Oral or Poster Presentations.**

Abstract Submission Requirements

- Abstracts for the ISRA2024 Symposium must be submitted online via the abstract submission site. Emails and word processing files submitted outside the abstract submission site will not be accepted.
- There is no limit to the number of abstracts an author may submit; however, **an author may only serve as the presenting author on two submissions.**
- It is the author's responsibility to designate a new presenter for presentation conflicts that arise.
- If accepted, the presenter **must** be an author, or a co-author listed on the abstract at the time of submission.
- Abstracts must have a complete status by the abstract deadline, or the abstract will not be considered for the ISRA2024 program. **Extensions will not be granted.**

Abstract Character, Structure, and Formatting Guidelines

Abstracts are limited to 200 words (excluding references). Please use the Vancouver style for all references. If necessary, the methods section should contain the sex and number of animals or humans included in the study, together with ethical approval information.

The abstract submitter needs to select a primary and a secondary category in which their abstract will be considered.

Abstract Writing Standards

- Abstracts must be written in English.
- **Do not** enter author information into the abstract body. Author affiliations will be added automatically based on the information entered during the submission process.
- **Do not** include the abstract title, references, or grant support in the abstract body.
- Standard abbreviations may be used without definition. Nonstandard abbreviations must be placed in parentheses after the first use of the abbreviation.

- When submitting your abstract, the ISRA2024 Abstract Scientific Committee recommends using language that is neutral, nonjudgmental, and free from stigma.
- Proofread abstracts carefully to avoid errors. Modifications will not be allowed after the September 25, 2024, deadline.
- Note: The Abstract Scientific Committee may modify the format to fit the look and feel of the media on which it is displayed or distributed.

Abstract Selection Process

All abstracts successfully submitted are reviewed by the ISRA2024 Abstract Scientific Committee.

Originality of work, adequacy of data, and clarity of exposition are the determinants in the selection of abstracts. An abstract that does not present the results of the study will not be considered for oral communication but may be eligible for a poster presentation.

The final decision with respect to the selection and programming of any abstract will be made by the ISRA2024 Abstract Scientific Committee.

Abstracts may be selected for oral presentation or poster presentation, or not selected.

Abstract acceptance status will be sent via email to the designated presenting author on October 18.

Abstract Publication and Revisions

- Submission of an abstract grants ISRA2024 the right to publish the abstract in The Journal of Vascular Research and on the symposium website isra2024.org.
- Abstracts may be revised online until September 25. Modifications will **not** be allowed after the submission deadline.

Abstract Presenter Expenses/Symposium Registration Fee

Abstract presenters will be **required** to attend ISRA2024 in-person to make their presentation.

Expenses associated with an abstract presentation (e.g., travel, hotel, congress registration fees, etc.) are the sole responsibility of the presenting author.

Presenters must register for the symposium before the abstract submission deadline of September 25 to be considered for presentation at the symposium. Abstracts that are not accompanied by an author registration will not be part of the abstract review & selection.

Technical Support

For questions regarding abstract submission, contact the ISRA2024 Symposium Secretariat info@cap-partner.eu
